

SUPER CREAMY RECIPES!

Vanilla Surprise

THE ICE CREAM THAT ALWAYS WINS HEARTS!

- **HEAVY CREAM (35% FAT)**

💡 Since it is denser, you must turn the crank for at least 5 minutes before closing the ramp to release the ice cream.

- **VANILLA ESSENCE (DROPS) OR 1 VANILLA BEAN PULP**
Add it through the slot where the heavy cream is poured.

- **CONDENSED MILK**

You can add it to the mixture or drizzle it over the ice cream once it's ready.

- Decorate your ice cream with a sprinkle of vanilla sugar.

***NOTE:** You can add sugar or sweetener to taste for a sweeter touch.
